

# Duraloc Panel

Wider panels are reinforced with ribs every three inches, creating an attractive, linear design. A popular choice for house roofs, light commercial, agricultural and residential applications.

# R-Panel

Our strongest panel, ideal for commercial applications. Available in purling bearing rib (PBR/PBL) design

## Snap Loc Panel

A clean profile with no visible fasteners. Specially designed snap-lock seam offers quick and easy installation. Designed for residential house roofs and light commercial applications.
